

If your child is a part of the Iona Primary School 1:1 Macbook program for 2016 please download the program below and run it on your child's MacBook.

The program will ensure a smooth integration of your child's Macbook into the Iona Primary School network. Without running this program your child's Macbook will not automatically connect to the school wireless network or have the appropriate settings for the school.

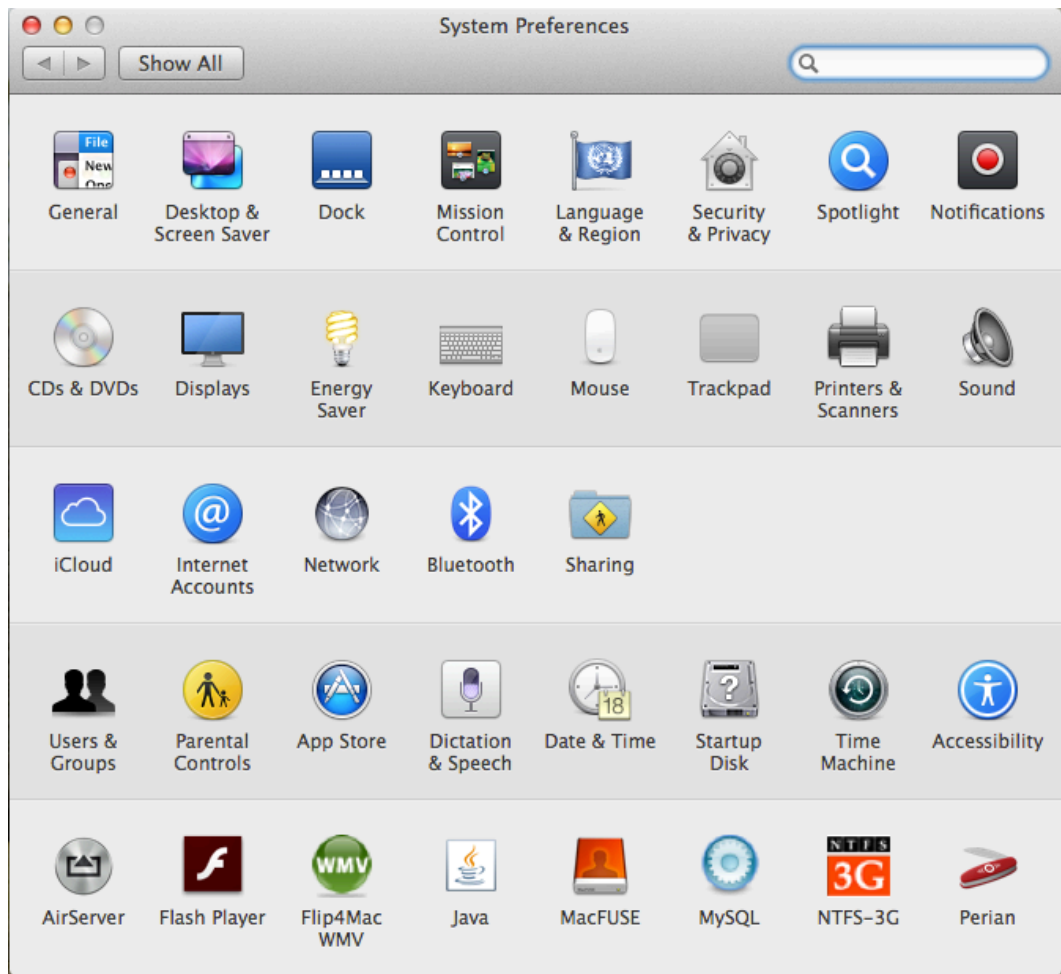

Please follow the instructions below:

1: Ensure that your Macbooks security settings have been set to allow the installation of this program. To do this please follow the instructions below:

Open system preferences from the apple menu, located at the top left of the screen.

Select the "Security and Privacy" from the top row of settings.

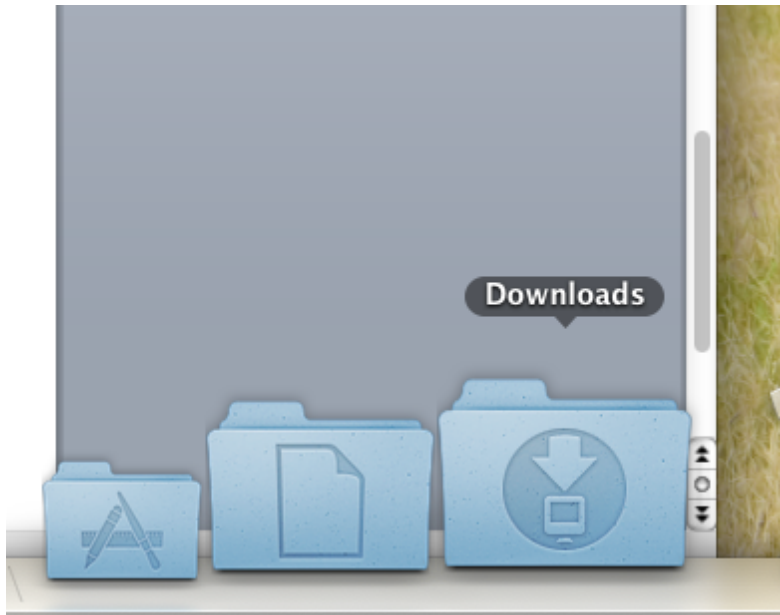

Unlock the settings by clicking on the “Lock” icon at the bottom left of your screen, you may be prompted to type in your password. Once the settings are unlocked please select “Anywhere” from the list of options.

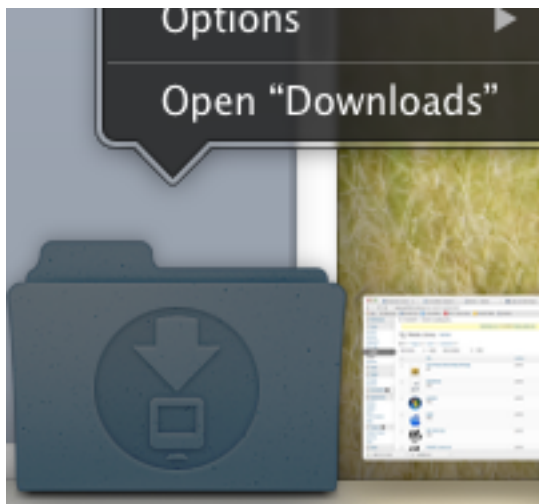

Once this is done please continue with step 2.

2: Installation the application.

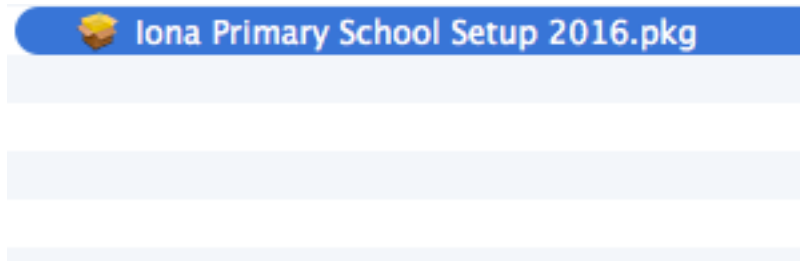

Once you have downloaded the application from the schools website it will be located in your "Download" folder which will be located in your dock.

Right click on the downloads folder by using two fingers and pressing down on your track pad on the MacBook and select "Open Downloads"

Double click on the file that says “Iona Primary School Setup 2016” and run this program.

Once you have installed the application your MacBook will be ready for the Iona Primary School network.
